What is good code?

4 rules of simple design

1. Passes all the tests.
2. Express every idea we need to express.
3. Contains no duplication.
4. Minimized the number of classes, methods and other moving parts.

Conway's Game of Life

4 simple rules

1. Any live cell with fewer than two live neighbours dies, as if caused by under-population.
2. Any live cell with two or three live neighbours lives on to the next generation.
3. Any live cell with more than three live neighbours dies, as if by overcrowding.
4. Any dead cell with exactly three live neighbours becomes a live cell, as if by reproduction.
